ENGINEERING EXCELLENCE IN SWITCHING TECHNOLOGY
Raychem RPG, a joint venture between RPG Enterprises and TE Connectivity, is a leading provider of technology solutions in the energy and oil & gas segments.

Energy Products Division (EPD), a strategic business unit of Raychem RPG views its activities as a solution provider for enabling technology that improves the performance, reliability and economy of electrical network and equipment.

With decades of experience in high-voltage switching technology, Raychem’s Hivelm has succeeded in development of high accuracy disconnecting switches with slender insulators. With large number of disconnectors supplied to many power systems, Hydrocarbon Industries, OEM’s etc., Hivelm has the reputation of being a technology leader for disconnectors in India.

**Manufacturing Facility**

Raychem RPG has a state-of-the-art manufacturing facility at Halol, Gujarat for designing, manufacturing and testing of high performance and best-in-class isolators/disconnectors as per the customer requirement.

**Comprehensive Portfolio**

Hivelm offers a comprehensive range of disconnectors from 11kV up to 1200kV of various current ratings from 800Amps to 3150Amps.

- Double Break (DB)
- Centre Break (CB)
- Vertical Break (VB)
- Knee Type (KT)
- Pantograph with reliable interlocked earth switch (PANTO)

### Features

- Reliable and robust construction
- Have been tested successfully for short circuit, dielectric, corona, seismic and RIV at International test houses as per IEC and Indian Standards
- Designed for easy erection at site
- Suitable for all weather and climatic conditions
- Can withstand high short circuit currents
- Earth blades with telescopic operation
- Can be supplied with complete accessories including support structure, insulators and connectors as per requirement
- Technical support for erection, commissioning and testing
