

Sustainability Policy

Our Philosophy

At Raychem RPG, we are committed to fulfilling our social, environmental and ethical responsibilities in alignment with our business commitments. We would achieve this in conjunction with our contribution to People and Planet by reducing waste and conserving natural resources.

Towards this Raychem RPG is committed to,

1. Introduce Processes & Systems in RRL that minimize adverse impact on Society and Planet
2. Attain and maintain its position as a leader in providing highest quality products and services to customers
3. Develop products that contribute positively to natural resource and energy conservation
4. Proactively contribute to overcome challenges faced by customers, partners, employees and external society in implementing Sustainability initiatives
5. Build sustainable Supply Chains
6. Prevent pollution, injury and ill-health associated with our manufacturing and service activities.
7. Foster a culture of trust, ethics and transparency with strong corporate governance
8. Integrate sustainability into business and key work processes for mitigating future risks for its stakeholders
9. Partner with society/communities for creating a social impact on the lives of the people around its manufacturing locations
